PACKAGING INFORMATION

Package	One-way PET can (red)
Content per can	20 L
Closure / cap	Child resistant, with induction seal
Pallet type	CP-2 one way, (1200 x 800 x 126mm)
Cans per pallet	45 (15 x 3)
Content per pallet	900 L
Gross weight per can	16.75 kg
Gross weight per pallet	775 kg
Dimension can (w x d x h)	239 x 265 x 450 mm
Dimension pallet (w x d x h)	1200 x 800 x 1350 mm
Pallets per truck	32
Cans per truck	1440
Liter / gross weight per truck	28,800 L / 24,800 kg

TOYOTOMI PREMIUM LIQUID FUEL FOR PARAFFIN HEATERS

Supplier:

During the last 75 years Toyotomi Co., Ltd. as the leading manufacturer in the world of paraffin heaters, has accumulated a vast knowledge in the field of the distribution of correctly specified fuel for its heaters. We know exactly which fuels are appropriate for our heaters, which knowledge has resulted in the development of 4 different formulas known as: Toyotomi Power, Toyotomi Plus, Toyotomi Max, Toyotomi Clear.

Regarding the filling of our products, we rely on strong partners having extensive knowledge in filling services of liquid goods, packaging, process handling and organization, quality management and professional logistics. Our partner is ISO 9001:2015 certified. Because Toyotomi premium liquid fuel complies with stringent European legislation, especially the French description in Arrêté 25-06-2010 or the DIN 51603-1, our fuel complies also with the warranty terms set by other manufacturers of mobile paraffin heaters.

Toyotomi is using newly developed 100% recyclable PET cans, because the benefits of PET are multiple; it is a strong material in combination with our quality fuels, our customers like it because it is lightweight, safe and 100% recyclable.

The advantages of Toyotomi fuel:

- Suitable for all brands of mobile heaters
- Virtually Sulphur-free
- Odourless
- Low aromatic hydrocarbon content
- High flash point
- Longer working lifetime of the heater
- Less emission of harmful substances

For optimum operation of your mobile paraffin heater and as a guarantee for comfortable use and a longer service life, we advise you to use the different formulas of Toyotomi fuel.

The advantages of Toyotomi PRIME fuel:

- **Safe**, with a flash point higher than 65°C.
- **Effective** during ignition, not producing any type of smoke and achieving a homogeneous combustion in the heater.
- **Optimal** for efficient use at low temperatures due to its composition. It maintains all its properties even at low temperatures.
- **Very Low Aromatic content**, only 0.0046 %/wt, leading to greater user comfort.

Warranty / savings program:

By using only our high quality Toyotomi fuel we can ensure not only an optimal combustion but also a longer life cycle of your heater. To encourage our customers to use the appropriate fuel for their heater, we also offer you the Toyotomi loyalty program. Every time you purchase a can of one of our many varieties of heater fuel you will earn points that you can redeem for annual warranty extensions of your heater each time you accumulate a total of 10 points. Contact our local sales office to find out exactly how to redeem your points.
